WHY DEBATE?

Six reasons it changes everything

Debate isn't just a competition skill. It shapes how a child thinks, learns and is seen by the world.

⭐

Confidence that lasts

Speaking up in class, at interviews and in life gets easier with every speech.

🔍

Sharper thinking

Weighing evidence, spotting weak arguments and making up their own minds.

✍️

Stronger English

Vocabulary, structure and fluency grow naturally, in speaking and writing.

📁

A portfolio that opens doors

Awards and leadership roles that scholarship panels and universities notice.

🤝

Leadership and teamwork

Debate is a team sport: planning together, giving feedback, leading.

🚀

Future-proof skills

Persuasion and critical thinking, the skills AI can't replace.

Wherever your child starts, the right exposure can take them somewhere different. Many of the best speakers we know were once the quietest in class.

DEBATE IN 60 SECONDS

So... what actually is a debate?

Two teams argue about a statement called a **motion**. One team supports it, the other opposes it, and a judge decides who argued *better*, not who shouted louder. It's a sport, but for your brain.

👍

Proposition

Argues *for* the motion.

👎

Opposition

Argues *against* the motion.

⚖️

Judge

Decides who won, and explains why.

HOW A ROUND WORKS

STEP 1 Motion revealed → **STEP 2** Team prep → **STEP 3** Speeches take turns → **STEP 4** Rebuttals → **STEP 5** Judge decides

SPEAK LIKE A PRO: 4 QUICK WINS

🧍 **Stand tall**
You look confident before you say a word.

👀 **Look up**
Talk to people, not to your notes.

🐢 **Slow down**
A pause sounds powerful.

🪧 **Signpost**
"I have two points. First…"

🔒 **In class, not in this guide:** what each speaker does, how to prepare a case in 30 minutes, and how judges really decide. We cover all of it in Rebuttal Rookies and Weekly Training.
